

Trading with China: Incl the FTA arrangement (workshop)

John Bedkoer, New Zealand Trade and Enterprise's - International Market Manager - North Asia, is keen to meet with people interested in detail on the NZ-China Free Trade Agreement and to explain what resources NZTE have to assist companies in that market.

John will make material available on doing business in China and explain how further information can be gathered, eg the tariff calculator which enables you to see what the China FTA's affect is on specific products.

John will also explain the function/meeting/business centre, fitted out as a little slice of New Zealand in Shanghai, that NZTE are soon to open – this venue will be available to New Zealand companies wanting to exhibit or to have a regular or occasional base in Shanghai.

Date: Tuesday 07 October 2008

Time: 5:00 pm to 6:00 pm
